#### Report of Independent Certified Public Accountants

Stockholders and Board of Directors Penson Financial Services, Inc. Dallas, Texas

We have audited the accompanying statement of financial condition of Penson Financial Services, Inc. (the Company), a wholly owned subsidiary of SAI Holdings, Inc. as of December 31, 2003, and the related statements of income, stockholder's equity, and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Penson Financial Services, Inc. at December 31, 2003, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I, II, and III is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. These schedules are the responsibility of the Company's management. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Distribution of SAMCO from parent, net of \$520,490 in cash	\$ 4,943,644

See accompanying notes to financial statements.

#### NOTE 1 – ORGANIZATION AND NATURE OF BUSINESS

Penson Financial Services, Inc. (the Company), a North Carolina corporation, is a broker-dealer registered with the Securities and Exchange Commission (SEC) and a member of the National Association of Securities Dealers, Inc. (NASD). The Company is a wholly owned subsidiary of SAI Holdings, Inc. (Parent) which in turn is a wholly owned subsidiary of Penson Worldwide, Inc. (PWI).

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Securities Transactions</u> - Proprietary securities transactions are recorded on a trade-date basis as if they had settled. Profit and loss arising from securities transactions entered into for the account and risk of the Company are recorded on a trade-date basis and are included in other revenue in the statement of operations. Customer securities transactions are reported on a settlement- date basis with related commission income and expenses recorded on a trade-date basis and included in net revenues from clearing operations in the statement of operations.

Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition. All such pending transactions settled after December 31, 2003 without material adverse effect on the Company's results of operations and financial condition.

Marketable securities are valued at market value, and securities not readily marketable are valued at fair value as determined by management.

<u>Securities Lending Activities</u> - Securities borrowed and securities loaned transactions are generally reported as collateralized financings except where letters of credit or other securities are used as collateral. Securities borrowed transactions require the Company to deposit cash, letters of credit, or other collateral with the lender. With respect to securities loaned, the Company receives in the form of cash an amount generally in excess of the market value of securities loaned. The Company monitors the market value of securities borrowed and loaned on a daily basis, with additional collateral obtained or refunded as necessary.

<u>Collateral</u> - The Company reports assets it has pledged as collateral in secured borrowings and other arrangements when the secured party cannot sell or repledge the assets or the Company can substitute collateral or otherwise redeem it on short notice. The Company generally does not report assets received as collateral in secured lending and other arrangements because the debtor typically has the right to redeem the collateral on short notice.

<u>Income Tax</u> - The Company utilizes FASB Statement No. 109, Accounting for Income Taxes, to account for income taxes. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes using enacted tax rates in effect for the year in which the differences are expected to reverse. Deferred tax assets are recognized and measured based on the likelihood of realization of the related future tax benefit. The Company is included in the consolidated federal and state tax returns filed by PWI. The Company calculated its income tax expense on a stand-alone basis, at the maximum federal rate of 35% plus an estimated provision for state taxes.

<u>Property and Equipment</u> - Property and equipment are stated at cost and consist primarily of purchased software of \$8,910,019 and furniture and equipment of \$8,384,718. Depreciation and amortization is generally provided on a straight-line basis using estimated useful lives of three to five years.

<u>Cash Equivalents</u> - The Company considers cash equivalents to be highly liquid investments with original maturities at time of purchase of less than 90 days that are not held for sale in the ordinary course of business.

<u>Fair Value of Financial Instruments</u> - The financial instruments of the Company are reported on the statement of financial condition at market or fair values, or at carrying amounts that approximate fair values because of the short maturity of the instruments.

Allowance for Doubtful Accounts - The Company maintains an allowance for doubtful accounts that represents amounts, in the judgment of management, necessary to adequately absorb losses from and inherent risks in outstanding receivables from customers and correspondents. Provisions made to this allowance are charged to operations based on anticipated recoverability. The allowance at December 31, 2003 was approximately \$12,708,000.

<u>Purchased Software</u> - The Company expenses or capitalizes, as appropriate, purchased software in accordance with the Statement of Financial Accounting Standards No. 86, "Accounting for the Cost of Computer Software to be Sold, Leased or Otherwise Marketed." All qualifying costs of developing or obtaining internal-use software incurred during the application development stage are capitalized. Costs incurred during the preliminary project stage, post-implementation stage and operation stage are expensed as incurred. Capitalized costs are amortized over the expected service life of the related software, generally three years, and are included in property and equipment on the statement of financial condition. The Company assesses the recoverability of these costs by determining whether the amortization of the capitalized costs over the remaining life of the projects can be recovered through undiscounted future operating cash flows. As of December 31, 2003, the Company had unamortized computer software costs of \$1,911,975 and amortization of capitalized software totaled \$1,666,043 for the year ended December 31, 2003.

<u>Use of Estimates</u> - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### **NOTE 3- ACQUISITION**

On January 31, 2003, PWI acquired all of the outstanding common stock of SAMCO Holdings, Inc. On February3, 2003, all of the common stock of SAMCO Capital Markets (SAMCO), an introducing broker-dealer wholly owned by SAMCO Holdings, Inc., was distributed to the Company and subsequently merged into a single member limited liability company owned by the Company. The operations, assets and certain liabilities of SAMCO were transferred to the Company and the limited liability company was distributed to PWI. Book value of SAMCO was approximately \$5,464,000 at that date.

#### **NOTE 4- SEGREGATED ASSETS**

Cash and securities segregated under federal and other regulations totaled \$364,845,968. Of this amount, \$362,112,899 was segregated for the benefit of customers under Rule 15c3-3 of the Securities and Exchange Commission, against a requirement of \$357,206,548. The remaining balance of \$2,733,069 relates to the Company's election to compute a reserve requirement for Proprietary Accounts of Introducing Broker-Dealers (PAIB) calculation, as defined. The PAIB calculation is completed in order for each correspondent firm that uses the Company as its clearing broker-dealer to classify its assets held by the Company as allowable assets in the correspondent's net capital calculation. At December 31, 2003, the Company had a PAIB reserve requirement of approximately \$2,465,713.

# NOTE 5 - RECEIVABLE FROM AND PAYABLE TO BROKER-DEALERS AND CLEARING ORGANIZATIONS

Amounts receivable from and payable to broker-dealers and clearing organizations at December 31, 2003, consist of the following:

		Receivable	Payable
Securities failed-to-deliver/receive	\$	14,401,979	\$ 12,761,604
organizations	_	36,579,857	 7,746,721
	\$	50,981,836	\$ 20,508,325

#### NOTE 6 - RECEIVABLE FROM CUSTOMERS AND NONCUSTOMERS

Accounts receivable from and accounts payable to customers and noncustomers include amounts due on cash and margin transactions. Securities owned by customers are held as collateral for margin loans made to customers. Such collateral is not reflected on the statement of financial condition.

#### **NOTE 7 - SECURITIES OWNED**

Securities owned consist of equity investments made in publicly traded equities, government securities as well as investments in certificates of deposit, each with an original maturity of greater than 90 days as follows:

	Market Value
Federal, state and municipal	\$ 17,798,593
Certificate of deposit	5,604,554
Corporate	2,562,066
Total	\$ 25,965,213_

Private equity securities are those securities (a) for which there is no market on a securities exchange or no independent publicly quoted market, (b) that cannot be publicly offered or sold unless registration has been effected under the Securities Act of 1933, or (c) that cannot be offered or sold because of other arrangements, restrictions, or conditions applicable to securities or to the Company. At December 31, 2003, the Company had \$183,270 of private equity securities which are included in other assets in the statement of financial condition.

#### **NOTE 8 - PAYABLE TO BANKS**

As of December 31, 2003, the Company's short-term bank loans consist of four lines of credit. Three of the lines of credit permit the Company to borrow in aggregate up to \$75,000,000. The fourth line of credit have no stated borrowing capacity. These lines of credit have no stated expiration dates.

The Company had a total of \$53,397,839 outstanding at December 31, 2003, under its four existing lines of credit recorded in loans payable to banks and customer loans payable to banks in the statement of financial condition. Borrowings under these agreements bear interest at a rate that varies with the federal funds rate, which approximated 1.0% at December 31,2003. They are generally secured by customers' securities on margin and noncustomer securities, and are repayable on demand. Total amount of collateral held at December 31, 2003 was approximately \$94,638,000.

#### **NOTE 9 - INCOME TAXES**

The current tax expense and deferred income taxes consisted of the following as of December 31, 2003:

Current tax expense:	_	
Federal	\$	2,242,746
State		573,016
Total current expense		2,815,762
Deferred expense (benefit):		
Federal		8,011
State		(238,098)
Total deferred benefit		(230,087)
Total tax expense	\$	2,585,675

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

Deferred income taxes consisted of the following:

Deferred tax liability:	
Property and equipment	\$ (420,368)
Deferred tax asset:	
Bad debt reserve	4,447,860
Prepaid assets	30,057
Total deferred tax assets	4,477,917
Total deferred tax asset, net	\$ 4,057,549

The Company is included in the consolidated federal and state tax returns filed by PWI. Therefore, the deferred tax asset is included in due from affiliate as of December 31, 2003. No valuation allowance at December 31, 2003 is necessary to reduce the deferred tax asset as it will more likely than not be realized by PWI.

#### NOTE 10 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

In the normal course of business, the Company purchases and sells securities as both principal and agent. If another party to the transaction fails to fulfill its contractual obligation, the Company may incur a loss if the market value of the security is different from the contract amount of the transaction.

The Company deposits customers' margin securities with lending institutions as collateral for borrowings. If a lending institution does not return a security, the Company may be obligated to purchase the security in order to return it to the customer. In such circumstances, the Company may incur a loss equal to the amount by which the market value of the security exceeds the value of the loan from the institution.

In the event a customer or broker fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's or broker's obligations. The Company seeks to control the risks associated with its customer or broker activities by requiring customers and brokers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, requires customers or brokers to deposit additional collateral or to reduce positions when necessary.

Securities purchased under agreements to resell are collateralized by U.S. Government or U.S. Government-guaranteed securities. The Company generally has such securities deposited in an account designated for the exclusive benefit of the Company's customers. Such transactions may expose the Company to off-balance-sheet risk in the event such borrowers do not repay the loans and the value of collateral held is less than that of the underlying contract amount. These agreements provide the Company with the right to maintain the relationship between market value of the collateral and the contract amount of the receivable. At December 31, 2003, the Company holds approximately \$29,630,000 in U.S. Treasuries as collateral, which guarantees performance by the counterparties with regard to the reverse repurchase agreements.

The Company's policy is to continually monitor its market exposure and counterparty risk. The Company does not anticipate nonperformance by counterparties and maintains a policy of reviewing the credit standing of all parties, including customers, with which it conducts business.

For customers introduced on a fully disclosed basis by other broker-dealers, the Company has the contractual right of recovery from such introducing broker-dealers in the event of nonperformance by the customer. In the event the customer or introducing broker does not perform, the Company is at risk of loss.

The Company is a market maker for certain public corporations, primarily regional banks. The Company selects companies in which it makes a market based on a review of the current market activity and also to facilitate trading activity of its own clients. Market making activities may result in concentrations of securities, which may expose the Company to additional off-balance sheet risk.

#### NOTE 11 - TRANSACTIONS WITH RELATED PARTIES

At December 31, 2003, the Company had a receivable of \$7,419,585 from SAI for payments made by the Company on behalf of SAI to support the operations of SAI and its affiliated companies. The balance is non-interest bearing and has no fixed terms of repayment.

#### **NOTE 12 - PROFIT SHARING PLAN**

The Company sponsors a defined contribution 401(k) profit sharing plan (the Plan) that covers substantially all employees. Under the Plan, the Company may make a discretionary contribution determined by the Board of Directors. All employees are eligible to participate in the Plan, based on meeting certain age and term of employment requirements. During 2003, the Company contributed \$538,449 to the Plan.

#### **NOTE 13 - COMMITMENTS AND CONTINGENCIES**

The Company leases furniture and equipment under a capital lease and leases office space and certain other furniture and equipment under operating leases. For the year ended December 31, 2003, total rent expense was \$3,143,464. Minimum noncancelable lease payments required under operating leases for the years subsequent to December 31, 2003, are as follows:

	-	Amount
2004	\$	2,580,677
2005		1,863,126
2006		1,490,589
2007		1,503,706
2008 and thereafter	_	1,484,644
Total	\$_	8,922,742

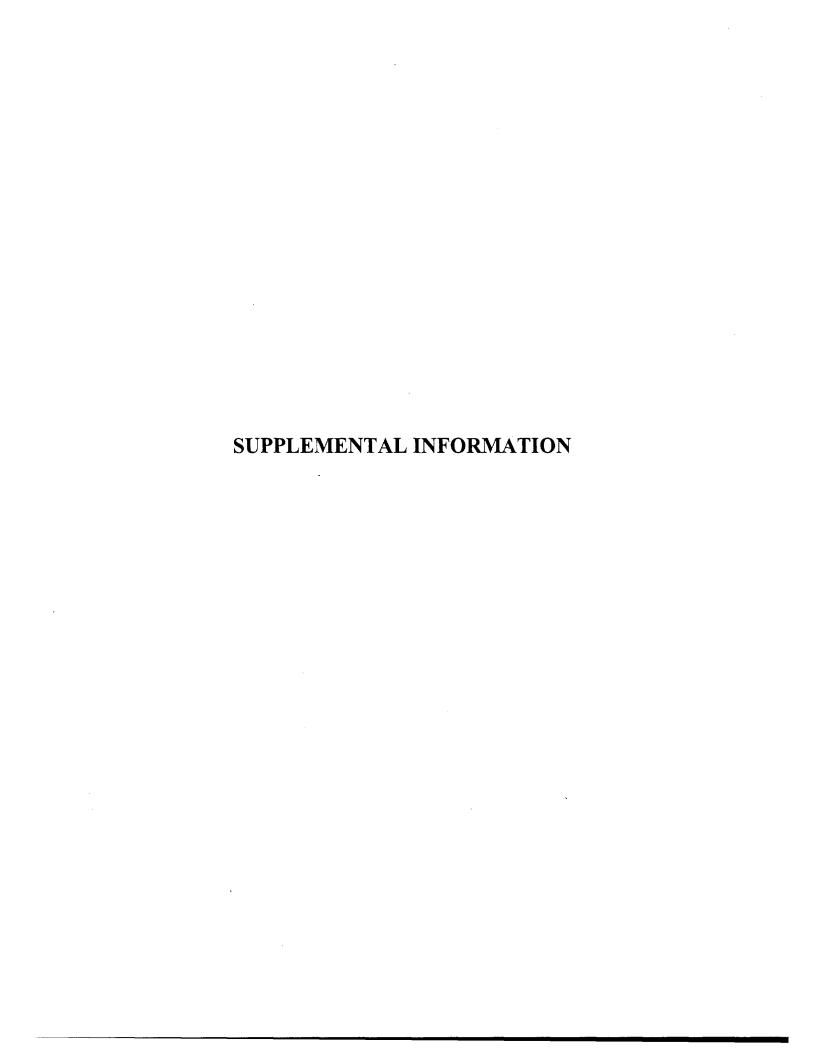

The Company is named in various legal matters arising in the ordinary course of business. Management does not believe the resolutions of these matters will have a material impact on the Company's financial condition.

#### **NOTE 14 - TRANSACTIONS WITH MAJOR CUSTOMERS**

For the year ended December 31, 2003, one correspondent accounted for approximately 12% of the Company's total revenues.

#### **NOTE 15 - NET CAPITAL REQUIREMENTS**

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital. The Company has elected to use the alternative method, permitted by Rule 15c3-1, which requires that the Company maintain minimum net capital, as defined, equal to the greater of \$250,000 or 2% of aggregate debit balances, as defined in the SEC's Reserve Requirement Rule (Rule 15c3-3). At December 31, 2003, the Company had net capital of \$38,427,714 and was \$26,085,199 in excess of its required net capital of \$12,342,515. As a clearing broker-dealer, the Company has elected to compute a reserve requirement for Proprietary Accounts of Introducing Broker-Dealers (PAIB Calculation), as defined. The PAIB calculation is completed in order for each correspondent firm that uses the Company as its clearing broker-dealer to classify its assets held by the Company as allowable assets in the correspondent's net capital calculation. At December 31, 2003, the Company had a reserve requirement of approximately \$2,465,713 as a result of the PAIB calculation. At December 31, 2003, the Company had a reserve deposit of \$2,733,069 in cash. A deposit was made on January 2, 2004 for \$5,000,000 to supplement the reserve.

# Independent Certified Public Accountants' Report on Internal Control Required by Securities Exchange Commission Rule 17a-5

Stockholders and Board of Directors Penson Financial Services, Inc. Dallas, Texas

In planning and performing our audit of the financial statements of Penson Financial Services, Inc. (the Company) (a wholly owned subsidiary of SAI Holdings, Inc.) for the year ended December 31, 2003, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in the following:

- (1) Making the periodic computations of aggregate debits and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e)
- (2) Making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13
- (3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
- (4) Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States.

Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate. Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and our study, we believe that the Company's practices and procedures were adequate at December 31, 2003, to meet the SEC's objectives.

This report is intended solely for the information use of the Board of Directors, management, the SEC, the National Association of Securities Dealers, Inc., and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
